

It was an honor and a pleasure to be a juror for the 2017 Springville Museum of Art Salon. Our state is rich with talented artists who work in all media and I enjoyed seeing so many submissions. Some artists' names were familiar to me, and others were new. It was difficult to narrow down the work to what would fit in the galleries because of the quality of work available. The staff at the museum were also very helpful and informative in working with us as we narrowed our choices. The Springville Salon is one of the best art shows in the state because of the breadth of work shown, the long-standing tradition of hosting it, and the beautiful setting.

Thank you for this opportunity and congratulations to all of the artists.
